Battle & Shoot to quickly kill your targets in a VR shooter game, or run away from enemy attack Beware, because the game will teleport you where the enemies are, so you need to know your enemies locations. Basically we are in a game of hide and seek, we make it hard for the enemy to find you, so you need to run away from them. The only way is hard slow process of going through different modes. In order to complete the game you need to find the targets, kill the targets, finish the game. And in order to kill them you need to shoot, explode and teleport into position. I recommend VR glasses, because of the slow movement the game seems like you are moving slow or hung to the floor, but actually you have to run fast, so VR is best for your suit. (I recommend the original Oculus Rift, the Rift CV1 and Sony HMD units) As for graphics, I have the Oculus Rift CV1 and it's excellent. I use Cineversity to capture my video for gaming to share, because it's fast to capture my video, it is HD quality and it's easy to use.Q: Help to prove this equality about solutions to a particular differential equation. This is an excerpt from my textbook. I'm not sure how to prove it. Let $y(t)$ be a solution to the differential equation $y^{(4)}+2y^{(3)}+\dots+ny^{(n)}+\dots+n!y=0$ if $y(t)$ is of the form $Ce^{at}+De^{bt}$. Let $\phi(t)=y(t)+Ae^{at}+Bt$. Then $\phi(t)$ is a solution to $\phi^{(5)}+2\phi^{(4)}+\dots+(n+1)\phi=0$ if $A+Be^{-2a}-Bte^{-2a}=0$. Thank you for your help! A: Hint: expand the exponential term into a power series. Riskers is the English Bulldog, who is the ruler of the North West Frontier and current leader of Stoats and Dawgs, Dogs and other terrifable beasts, the greatest Show Dog in the world. Every day at noon, he yawns, stretching his wide jaw across the narrow welt, a deep blue furrow on the back of his snout. It hiss of disapproval, unable to contain its contempt for such a dull and predictable act. Riskers yawns then displays the full extent of his witter, baring his pointy teeth in a smile. The mass of his throat shudders into a growl, sounds not unlike a sick cat's puking or the whinnying of a horse. It's this sound that called him a Risker. He was born a show dog, but the yawning took him away from the stage and the fame that comes with the fame. Now he is trying to reclaim his position as ruler of the region, take on his mother-in-law's most vicious dog, Nightshade and take over the region by slaughtering the Stoats and driving away the government men until he is elected King of the North West Frontier. Riskers yawns is happy to help. He has a plan.
