The Devil and Daniel Webster is a 1941 American fantasy film based on the 1937 story of the same name by Stephen Vincent Benet. Even though it took place in 1931 and happened in Hollywood, that's not much to say about it, and it would be nice if it never happened in production. It was filmed on a very small, almost invisible budget, which means it wasn't filmed in a location that could have been filmed on a \$25,000 budget. Regardless, it was quite interesting because it was done in black and white, which was a fashionable movement at the time.
